ORDERING INSTRUCTIONS (Please Specify the Following):

- A. Quantity
- B. Product Model (GSH)
- C. Frame Color
- D. Net Screen Opening Size (Width x Height)
- E. Opening Style (see the opening configurations style chart on page 2)
- F. Options (specify any other desired options)

Note: The Sheer Classic Screen must be recess mounted.

If needed use the optional Surface Mount Kit (see page 4) or utilize other materials to allow for surface mounting the screen.

View and download the installation instructions at:

www.geniusscreens.com

NOTE: Genius screens are designed to support natural ventilation and protection against air born insects and other pests. Windy conditions may affect the performance of the screen. Retract the screen in windy circumstances, during inclement weather and when not needed to support immediate ventilation or prolong periods of time when not used.

MODEL: Sheer Classic

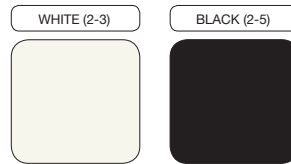

SURFACE MOUNT KITS: At Genius we have developed a Sheer Screen Surface Mount Kit that allows the option to install the Sheer Screen on the outside opening. The traditional, most common installation for this unit is a recess/inside mount sold as the standard option. The new Surface Mount Kit will allow the Sheer Screen to be installed in different applications that do not typically allow for a recess application (Patio, Terrace, Multi Panel French door, and other non traditional applications).

Depending on the application the Surface Mount Kit can be installed on one, two, three or all four sides of the opening. Once installed, the Surface Mount Kit will act as a frame where the Sheer Screen can be attached. Many applications do not need the Surface Mount Kit installed on all sides. Refer to Genius installation instructions publication 50-00074-0-0 or visit www.geniusscreens.com/installation/.
