## TECHNICAL PROFILE

View and download the installation instructions at:  
[www.geniusscreens.com](http://www.geniusscreens.com)

Genius screens are designed to support fresh natural ventilation and to provide protection against small air born or crawling insects. Unlike 4-sided fixed framed screens, Genius screens retract in and out of a protective cassette so that you can enjoy an unobstructed view when the screen is not being used. The exposed surface area of the fabric is flexible. This means that during windy conditions or inclement weather, the screen should be retracted so that the fabric is hidden away and completely protected. This screen is not intended to be left open and exposed continually to wind, sun, rain or other harsh conditions. When the screen is not being actively used to protect people or when it is windy then it should be retracted. Be sure to follow all care and use instructions.

**⚠ WARNING****Window Blind Cord Can STRANGLE Your Child.**

Keep cords out of children's reach. Shorten cords to prevent reach.  
Move crib and furniture away-- Children can climb furniture to reach cords.

**⚠ ADVERTENCIA****La cuerda de la persiana puede ESTRANGULAR a su niño.**

Mantenga las cuerdas fuera del alcance de los niños. Acorte las cuerdas para evitar el alcance.  
Mueva la cuna y los muebles - Los niños pueden subir los muebles para alcanzar las cuerdas.

**⚠ MISE EN GARDE****Le cordon de store pour fenêtre peut étrangler votre enfant.**

Gardez les cordons hors de portée des enfants. Raccourcissez les cordons pour empêcher l'accès. Éloignez le berceau et les meubles. Les enfants peuvent grimper sur les meubles pour atteindre les cordons.
